

Enhancements for 2010:

1. The ability to set a donors status to Inactive or Active. Inactive donors will be unable to access the donor site.
2. Additional fields added to the donor designation export including; date cancelled, company code, campaign year and mailing address.
3. The Forgot Password email is now customizable that extends to content, From Name and Address, Reply Address and subject line.
4. Modifications to add and updating import files.
5. Special events dollars are now visible via the dashboard through the Coordinator Level.
6. The number of Pay Periods a donor has is now included in the payroll donation payment detail.
7. Updating Import Templates are now available which eliminates selecting the desired fields to be updated every time an import is completed.
8. Agency updates/ changes will be tracked in an audit trail similar to the donation audit trail with the donor record.
9. Ability to export agencies from the administrative site.
